

ONE-TIME SPECIAL PRICE FOR ALL AVAILABLE OPTIONS

HURCO® CNC control increases profitability – fastest from design to finished part.

HURCO's powerful MAX® 5 CNC control, combined with WINMAX® CNC control software, creates the CNC control with the industry's greatest flexibility and most intuitive operation. More importantly, every feature delivers benefits that are measurable as increased productivity, which in turn leads to increased profitability.

More for less

To get even more out of your HURCO CNC control, and therefore out of your machining center, we offer a number of additional options for a fee.

The list of available options for your HURCO CNC control is diverse!

- NC-Dialog-Mix
- Tool change optimization
- Solid-Model-Import
- Ultimotion
- 3D-Plus
- 3D-DXF
- and many more

Get all options for your HURCO CNC control, at a special price!

Only until 30.04.2021,

Let one of our application engineers advise you.
